

CERTAIN INSIGHTS DRIVE BETTER DECISIONS. SITEWISE. BE CERTAIN.

Sitewise Pro is a data visualization and analytics solution providing decision support for market planning and site selection. Create rich, analytical reports and maps with a few taps of your connected device. Improve team efficiency by capturing data in the field and share it instantly with others.

KEY BENEFITS

- Create compelling site report packages from the field
- Capture data and share maps
- Deploy predictive models
- Improve team efficiency
- Work seamlessly in the US and Canada
- Automate complex workflow processes

OVERVIEW

Sitewise Pro was created for real estate decision makers who need to easily access their portfolio information, share maps and analyze sites.

Whether you would like to incorporate a complex site forecasting model or generate a basic demographic report, Sitewise Pro offers a cost effective solution for rapid deployment with minimal IT involvement.

CREATE SITE REPORT PACKAGES FROM THE FIELD

With a few taps on an iPad, generate a rich, visual report that integrates demographics, business info, traffic counts and your own relevant data. Report packages are tailored to your needs and can include tables, charts, metrics, descriptive text and a series of maps with thematics or aerial imagery.

COLLECT FIELD DATA AND SHARE MAPS WITH YOUR TEAM

Update a proposed site's status, change locations of competitors and edit related attribute data from the field. Your team will instantly see the updates.

DEPLOY PREDICTIVE MODELS

Incorporate site forecasts, analog models or other Excel-based models into Sitewise Pro and run the reports from any location.

IMPROVE TEAM EFFICIENCY

Our solutions streamline and automate time-consuming reports, allowing you to focus on higher value tasks.

WORK IN THE US AND CANADA

Seamlessly work across borders. We offer data from the industry's premier providers in both countries.

CUSTOMIZED SOLUTION

We collaborate with your team to develop a solution that fits how you work.

ABOUT TETRAD

Tetrad delivers cost-effective and flexible market analysis solutions to empower businesses to make critical site and market-related decisions. Our solutions are employed by clients from diverse industries including retail, real estate, healthcare, and restaurants.
